Professional Summary

Computer Science student with 6+ months of hands-on project experience in frontend development, API integration, and building responsive web applications. Proficient in Java, JavaScript, React, and MySQL. Developed 3+ real-world projects including BingBox, E-commerce UI, and a Weather App. Strong problem-solving skills with over 50 DSA problems solved on LeetCode. Adept at translating user needs into functional, elegant code with measurable outcomes.

Technical Skills

Languages: Java, SQL, JavaScript

Databases: MySQL, Firebase (Basics)

Frontend: HTML, CSS, JavaScript, React.js

Backend: Node.js (Basics)

Tools & IDEs: Git, GitHub, VS Code, IntelliJ IDEA, Figma

Projects

BingBox – Movie Trailer UI

- - Developed a React-based movie trailer platform with smooth UI transitions and real-time video playback.
- - Optimized media loading and implemented lazy-loading, improving perceived performance and user experience.

E-Commerce UI with Add-to-Cart

- - Developed a responsive e-commerce frontend featuring 20+ product listings using HTML, CSS & JavaScript.
- - Implemented cart logic supporting dynamic add/remove and total pricing updates.

Weather App with API Integration

- - Created a weather dashboard using OpenWeatherMap API with support for 100+ city lookups.

- - Delivered accurate temperature, humidity, and condition data with a 98% response success rate.

To-Do List Web App

- - Engineered a task app supporting 100+ persistent tasks using local Storage with a 0.3s DOM update latency.
- - Enabled task filtering and real-time status toggling with smooth user feedback.

Currency Converter

- - Utilized Exchange Rate API to convert between 30+ currencies in real-time.
- - Enhanced accessibility and user responsiveness on mobile and desktop platforms.

Attendance Tracker

- - Built a daily tracker system supporting CRUD operations on 100+ entries using vanilla JS and local Storage.
- - Integrated visual feedback and validation for seamless entry management.

Education

Schooling :

10th Grade – 81.8% (Year of Passing: [2020])

12th Grade – 72.5% (Year of Passing: [2022])

Saraswati Vidya Mandir Intermediate College, Bijnor

Bachelors:

B.Tech in Computer Science & Engineering

Galgotias University, Greater Noida

Expected Graduation: 2026 | CGPA: 7.45

Certifications & Training

- AWS Cloud Foundations & Architecting – AWS Academy (Sep–Aug 2024)
- Web Development Fundamentals – IBM Skills Build (Mar–Apr 2025)
- Android Developer Virtual Internship – Google & AICTE (Sept–Nov 2023)
- AWS Cloud Virtual Internship – AWS & AICTE (Jul–Sept 2024)
- Java Programming – Oracle (Jan 2024)
